Note: when the product is in any of the three modes, the function key of the other two modes is to exit the current mode and enter the corresponding functional mode.

Continuous working time:

Emergency light mode high light level about 4 hours

Emergency light mode low light level about 8 hours

Small night light mode about 24 hours

Side warning light mode blinks continuously for about 20 hours

Usage notes:

- 1. Avoid storing in dark and damp place to prolong battery life;
- 2. It is best to charge the battery every 3 months to avoid damaging the battery if it is not used for a long time;
- 3. Turn off all functions when charging to extend battery life;

4. Avoid falling from a height to protect the internal battery and circuit;
5. If the light is obviously dimmed, please charge it in time to ensure sufficient charging time to extend the battery life;
6. When using the emergency light function, the light can not be directly aimed at the eyes, so as not to affect the vision.
